

TABLE OF CONTENTS

FOREWORD (Dr. Spero Carras)	(i)
PREFACE (The Author)	(v)
1 LOFT DESIGN	1
Construction	3 - 10
Internal/external temperatures	10 - 11
Loft photographs	12 - 19
2 FEEDING – TESTING – LEARNING	
Preamble	20 – 21
NUTRIENT COMPOSITION OF FEEDSTUFFS	22
Major grains	23
Vegetable Protein Seeds	24
Barley	25
Maize	25
Millets	25
Oats	25
Rice	25
Rye	26
Sorghum	26, 64-70
Triticale	28
Wheat	28, 69-70
Brewer's Grain (dried)	29
Corn Gluten	29
Hominy Feed	29
Rice Pollard	29
Wheat Mill by-products	30
Wheat bran	30
Wheat Pollard	30
Lucerne	31
Vegetable Protein Meals	31
Adzuki Bean	31
Chick Pea	31
Coconut Meal and Copra Meal	32
Cotton Seed Meal	32
Cow Pea	33

PIGEON RACING – A SCIENTIFIC APPROACH

<i>Dolichos</i>	33
<i>Linseed Meal</i>	34
<i>Lupins</i>	34
<i>Mung Bean</i>	35
<i>Navy Bean</i>	35
<i>Pea</i>	35, 71-72
<i>Peanut Kernel</i>	36
<i>Peanut Meal</i>	36
<i>Rapeseed Meal</i>	37
<i>Safflower Meal</i>	37
<i>Sesame Meal</i>	38
<i>Soybean Meal (Extracted)</i>	38
<i>Soybean Meal (full fat)</i>	39
<i>Sunflower Meal</i>	39
<i>Sunflower Seed (unextracted)</i>	39
<i>Fats and Oils</i>	40 – 42
<i>Calcium and Phosphorus Sources</i>	42
<i>Calcium Sources</i>	42
<i>Phosphorus Sources</i>	42
<i>Synthetic Amino Acids</i>	43
<i>Molasses (Cane)</i>	44
<i>Yeasts</i>	44
<i>Brewer's Died Yeast</i>	44
<i>Torulla Yeast</i>	44
NUTRIENT COMPOSITION TABLES	45
<i>Tables Legend</i>	46 – 47
TABLES	
<i>Proximate Amino Acids Summary</i>	48 – 51
<i>Miscellaneous</i>	51
FATS AND OILS	51
VITAMINS, MINERALS, TRACE ELEMENTS	52 – 54
<i>Calcium and Phosphorus Sources</i>	54
RECOMMENDED MAXIMUM INCLUSION % POULTRY DIETS	55

PIGEON RACING – A SCIENTIFIC APPROACH

ESSENTIAL AMINO ACIDS

<i>Histidine</i>	56
<i>Isolencine</i>	56
<i>Leucine</i>	56
<i>Lysine</i>	57
<i>Methionine</i>	57
<i>Phenylaline</i>	57
<i>Threonine</i>	57
<i>Tryptophan</i>	58
<i>Valine</i>	58

BASIC GRAINS AND VEGETABLE SEEDS OF CHOICE 58 – 61

SUMMARY – HIGHEST % GRAINS & LEGUMES 62 - 63

<i>Sorghum</i>	64 - 68
<i>Pigeon Pellets</i>	67
<i>Wheat – component per 100g portion</i>	69
<i>Sorghum vs wheat</i>	70
<i>Field Pea (Pisum Savitum)</i>	71 - 72
<i>Unsatisfactory feed</i>	72 - 75
<i>Testing for Quality of Grain – fungal infection</i>	76
<i>Grain Appraisal in General</i>	76
<i>Fungal Infection – A least thought about vector</i>	77

EGGS -ACTLY 78

<i>Introduction</i>	78 - 79
<i>Temperature</i>	78
<i>Scientific feeding method</i>	80 - 84
<i>Incubation temperatures – TinyTalk-II</i>	84 - 88

3 BREEDING

<i>How do you decide what to mate with what?</i>	89, 568
<i>The Evils of Inbreeding</i>	89, 579
<i>Roger Brown – Four Factors for Selection</i>	89, 652
<i>Leo Turley on Fosters</i>	89
<i>Inbreeding and crossing – Georges Gits</i>	90

4 WEANING 97

5 MOULTING 102 – 103

PIGEON RACING – A SCIENTIFIC APPROACH

6	THEORIES OF HOMING – RACING - TRAINING	106
	<i>Homing – the art of – the ability of pigeons to home</i>	106 – 115
	<i>Professor W.T. Keeton and Schmidt-Koenig And Schlichte et al.</i>	116 – 122
	<i>Olfactory Studies</i>	122-123, 689
	<i>Lies, Damned Lies...</i>	124 – 132
	<i>Extracts of a wider article written March 2007 for ARPJ</i>	132
	<i>A letter to the late Richard Clingan, Editor The Australian Racing Pigeon Journal</i>	134 – 137
	<i>The Homing Instinct – The wash-up - How not To lose pigeons – a hypothetical</i>	137 - 142
	<i>Interrupted returns on very clear days</i>	142 – 152
	<i>Steve Jonelli – A friend from Oregon USA on bird Losses</i>	153 - 154
	<i>Champions, Secrets, Fads and Theories</i>	155 – 161
	<i>Parallels between human endeavour and pigeon racing</i>	163 – 173
	<i>What is the most ridiculous theory?</i>	174, 689
	<i>Water, Water, Everywhere</i>	179 – 189
	<i>An explanation for losses</i>	189, 513-530
7	FORM AND FEEL	
	<i>Form in racing pigeons</i>	190
	<i>Preparation for the race</i>	190
	<i>Selection for the race</i>	193 - 200

8 MOTIVATION – MAN AND BIRD

<i>A working fancier's challenge in pigeon racing</i>	204 - 210
<i>Celibate motivation</i>	210
<i>Property</i>	212
<i>Widowhood in Australia</i>	212, 643-651

9 READING THE WEATHER

<i>The weather and pigeon racing</i>	215
<i>Race forecasting</i>	217, 657
<i>A typical forecast</i>	217, 673

10 LINES OF FLIGHT – WHY LOSSES?

<i>Definition of a line of flight</i>	218
<i>An Australian issue</i>	219

11 ILLNESS – BIOSECURITY – PMV

<i>General</i>	222
<i>Mycoplasma</i>	222
<i>Trichomoniasis (Canker)</i>	223
<i>Worth knowing about canker</i>	224
<i>Adenovirus</i>	225
<i>Coccidiosis</i>	225
<i>Circovirus</i>	226
<i>Bursa of Fabricius</i>	227
<i>Daily inspection</i>	228
<i>Biosecurity</i>	229
<i>Pigeon Transporter Gas Potential Penetration in the tray body of the Transporter</i>	230

12 MEDICINES – DISEASE – ODDS AND ENDS

<i>Gram negative, gram positive</i>	233
<i>pH</i>	234
<i>Injuries – crop puncture/tears - broken leg</i>	234
<i>Loft cleaning</i>	235
<i>Writing table in loft</i>	235
<i>The bully at the water trough</i>	236
<i>Probiotics</i>	238
<i>Prescribed Medicine Regimes for Racing</i>	239

PIGEON RACING – A SCIENTIFIC APPROACH

13 OLD WIVES TALES – HOME REMEDIES

<i>Home remedies</i>	243, 608
<i>Old Wives Tales</i>	243, 623

14 ADVICE FOR NOVICES

<i>The Basics of Pigeon Racing</i>	245
<i>Feed complications</i>	248
<i>Training and the first toss</i>	250
<i>Trappers</i>	254
<i>The “Wait”</i>	255
<i>Separation of the sexes</i>	259
<i>Questions on training</i>	260, 503
<i>Pigeon racing by degrees</i>	260
<i>The main regions for pigeon racing</i>	263
<i>The more temperate zones</i>	263
<i>Mean maximum and minimum temperatures</i>	
<i>Australian capital cities</i>	265
<i>Latitudes of pigeon racing across the globe</i>	267, 268
<i>Malta</i>	269
<i>Belgium</i>	269
<i>Feeding</i>	270
<i>Feed anomalies</i>	271
<i>How to start</i>	275, 494
<i>Buying and selling pigeons</i>	275, 562
<i>Post Liverpool Sale Centre Auction</i>	276, 563
<i>Understanding cats in relation to our pigeons</i>	276
<i>Put a cat amongst the pigeons – the truth of the matter</i>	281
<i>Joseph X.... on floor cleaning</i>	282
<i>Deep litter in race baskets</i>	285
<i>Mentoring a friend</i>	288
<i>Response to a request for information from a well-known Veterinarian</i>	293
<i>Ponderings</i>	302
<i>Terry Mulholland</i>	303

15 HELPFUL BACKGROUND FOR RACE COMMITTEES

<i>Discussion on ‘Smash’ Races in the northern hemisphere</i>	309
<i>What every Race Committee needs to know</i>	311, 548
<i>Good returns</i>	311, 510
<i>Transport and travelling – water and rest</i>	311
<i>Points to Contemplate</i>	312
<i>Plotting for race weaknesses</i>	316
<i>“Pressure Cooking”</i>	316

PIGEON RACING – A SCIENTIFIC APPROACH

	<i>“Pressure Cooking” Mark 2</i>	317
	<i>Eggs in baskets</i>	317
	<i>Loft Stamina</i>	318
	<i>Steve Jonelli – a friend from USA on bird losses</i>	318, 153
16	PREDATORS	
	<i>Falcons - John Tierney “Why you don’t see baby Pigeons.....”</i>	323
	<i>Predation and pigeon losses in general</i>	324
	<i>Notes on Birds of Prey and racing pigeons in Tasmania with special reference to the Peregrine falcon</i>	328
	<i>A response to an irate pigeon fancier on the subject of raptors.</i>	342
17	WORLD VIEW	
	<i>History of Pigeon Racing – the origin of pigeons</i>	347
	<i>The origin of pigeons (2)</i>	348
	<i>The origin of pigeons (3)</i>	350
	<i>Reminisces of the Golden era 1932 – 1937</i>	352
	<i>“Robbo” of Melbourne</i>	353, 355
	<i>Follow-on from “Robbo’s Mate” article</i>	357
18	FAMOUS PIGEON FANCIERS	
	<i>The great Northrop Barker and the Samuel Hordern influence in Australia – the ‘Letter Blood’</i>	362
	<i>More Northrop Barker</i>	385
	<i>Barker, the greatest name in the sport “Old ‘Un”</i>	386
	<i>Extract – The Production of Strain – What fanciers owe to Belgian breeders – The Brussels Group – Lt Col AH Osman OBE</i>	402
	<i>The mighty Harrison’s and the Maximilian Foy influence</i>	
	<i>Part 1</i>	403
	<i>Part 2</i>	407
	<i>Part 3</i>	410
	<i>Part 4</i>	413
	<i>Part 5</i>	416
	<i>Pure Gits</i>	422
	<i>Alexandre Hansenne – “The best loft in the world”</i>	427
	<i>Mons. G Gits dispute re Ulens/Beernaert’s</i>	431 - 434

PIGEON RACING – A SCIENTIFIC APPROACH

OLD WIVES TALES	623
<i>Lightning storms cause eggs not to hatch</i>	624
<i>Shivering means a bird is in form</i>	625
<i>Blood spot on the keel</i>	625
<i>A hen's first egg is something special</i>	626
<i>If a pigeon goes light pull its tail out and it will recover</i>	627
<i>Warm feet mean good form</i>	627
<i>White pigeons are hawk bait</i>	628
<i>The three feathers under the wing must have square ends</i>	630
<i>Mosaics should be kept for stock</i>	631
<i>Pigeons with wide vents are no good</i>	631
<i>Dustcoats. Where did they come from and any advantages?</i>	632
<i>An east wind means a disaster</i>	633
<i>A pigeon with a loose tail attachment is no good</i>	635
<i>The less birds that make it home, the better the winner is</i>	636
<i>Red cocks always have black flecks in their wings</i>	636
<i>Eyesign – Do we dare go near that one?</i>	637
<i>An imported band makes a pigeon better</i>	637
<i>Plucking a hen will help an old cock's fertility</i>	638
<i>Moulting the last few flights is painful for a bird and they shouldn't be tossed while doing so.</i>	638
<i>After a race birds need a good clean out with some Epsom salts</i>	640
<i>If a hen won't lay foster some eggs under her and it may help</i>	640
<i>Old pigeons mated together are no good</i>	640
<i>You can sex a youngster by the length of its toes</i>	640
WIDOWHOOD IN AUSTRALIA	643
ROGER BROWN – FOUR FACTORS FOR SELECTION	652
RACE FORECASTING	657
<i>A typical forecast</i>	673
THE RISE AND FALL OF PIGEON RACING IN AUSTRALIA	677
WHAT IS THE MOST RIDICULOUS THEORY?	689
A SERIES OF QUESTIONS FROM THE AUSTRALIAN RACING PIGEON JOURNAL EDITOR	692

PHOTOGRAPHS

No.

1	<i>A "full wing" with all flights in place</i>	vii
2	<i>Author in front of his loft circa 1990 – 92</i>	1
3	<i>Author inside loft circa 1990 – 92</i>	3
4	<i>How many have the confidence of their birds to stand in front of them like this?</i>	4
5	<i>Happy birds!</i>	4
6	<i>Construction and materials – Grandson Kurt Crispin's loft 1997</i>	5

PIGEON RACING – A SCIENTIFIC APPROACH

7	<i>Completed loft – Grandson Kurt Crispin’s loft 1997</i>	9
